The minimum service call in Manhattan is \$30, which will be offset by any labor performed. Repairs performed outside an eight mile radius from central Manhattan will be charged an additional \$1 per mile round trip. If you live outside of Manhattan, get together with some friends who need bike work and split the travel charge!

### **Labor charges for common repairs- does not include parts**

Safety check – performed on every bike I touch:	No Charge
Replace a tube and/or tire:	\$10 per wheel
Tubeless tire replacement:	\$20 per wheel
Tubeless tire setup:	\$30 per wheel
Adjust derailleurs:	\$15 each
Replace derailleur cables and adjust:	\$20 each - \$30 for internal routing
Install derailleur and adjust:	\$25 each
Replace flat bar shift lever or brake lever and adjust	\$25, Drop bar
Replace drop bar shift/brake lever and adjust	\$35 and up
Adjust rim brakes:	\$15 each*
Replace rim brake cables and/or pads and adjust:	\$20 each
Replace rim brake and adjust.	\$20 each
Adjust cable operated disc brakes with rotor truing:	\$20 each*
Install disc brake pads, and/or cables and adjust:	\$25 each*
Adjust hydraulic disc brakes and true rotors:	\$15 each*–\$20 with pad replacement
Replace disc brake rotors:	\$8 each
Bleed hydraulic brakes:	\$30 each*

\*Squealing brakes usually require new brake pads, and in the case of disc brakes, also new rotors. I am willing to clean and sand the pads and the rotors to try and stop brake squeal, but that work cannot be guaranteed. The only way I will guarantee to stop brake squeal on rim brake bikes is to replace the brake pads or the brakes. On disc brakes, the pads and the rotors will need to be replaced in order to guarantee the work. Look elsewhere on the website for a deeper explanation of brake squeal.

Wheel truing:	\$12 and up, depending upon severity
Replace broken spoke(s) and true wheel:	\$20 and up on front, \$25 and up on rear
Wheel building:	\$60 and up, there are a lot of variables
Adjust bearings: wheel, crankset or headset:	\$12 each and up, depending upon the design
Overhaul bearings:	\$20 each and up, depending upon the design
Replace chain, cassette, or freewheel:	\$8 each
Adjust single speed chain:	\$5
Cleaning and lubrication:	Light clean and lube - \$10 Dirty bike clean and lube - \$15 to \$25 Filthy and greasy bike - \$25 and up
Supplies (lubes, cleaners and rags)	\$1 to \$5
Assemble a boxed bicycle:	\$40 and up, depending on style of bike, condition, and needed adjustments

There are many other services I can perform that are too numerous to list, call or email for any service not listed here.
